Property Description

This great home is high above Campbell and Skyline is completely remodeled with wonderful features. Nestled in a neighborhood that has kept the natural desert look and is so nice and quiet. Large private lot with NO street traffic noise and all underground power lines!! Newly remodeled and has a nice secured back yard for the two legged kid or four legged kid
The VIEWS of the Catalina Mountains and especially Finger Rock - just dreamy for some R & R which we all need. Truly one of a kind and much more!
