Property Description

Recent remodeling includes: new granite countertops, wood-plank styled tile floors extending from entry through kitchen plus new stainless sink, stove, dishwasher, microwave and plumbing fixtures. Some natural wood over a large masonry fireplace and a contiguous formal dining area create a delightfully comfortable living area. The kitchen's generous window overlooks a good-sized, well-landscaped yard while providing lots of light into a nice breakfast area. An interior washer/dryer closet, separate pantry plus loads of cabinet and counter space make for a great place to cook. A nice-sized patio is part of a professionally maintained rear yard. All this plus 2 well-laid out bedrooms and 2 full bathrooms with walk-in master closet
