Property Description

Hi,
This is a nicely refreshed rowhouse in the 2700 block of Ashland Ave. This is not far from Johns Hopkins Hospital. This rowhouse has some very nice features. First, it has 3 decent size bedrooms and a 4th when you consider the basement. It was newly renovated about 6 years ago and I am refreshing it now. It has all new electrical wiring and plumbing with modern light fixtures. There is a beautiful ceramic tile bathroom upstairs. A wonderful porch in the front to enjoy long summer days and nights. There is a full bathroom upstairs and in the basement! There is a nice stackable washer dryer upstairs or downstairs as needed and tons of rich hardwood floors.
